

Sprint 2 Report

Equip Invest Contract

EIC

Actions to stop doing:

Actions to start doing:

- Get started early
- Knowing what tasks are dependent on each other
- Test full stack after creating API call before trying to integrate into front end to isolate errors
- Documenting code more

Actions to keep doing:

- Communicating well and doing all the work that need to be done. Use slack to communicate often. Keep future tasks in mind as we develop.
- Pushing code changes consistently

Work Completed:

User story 5 ("As a student/buddy, I need to be able to send/accept requests in order to establish connections")

User story 6 ("As a student/buddy, I need to be able to view my established connections so that I can contact them and remember who I'm connected with")

Work Not Completed:

User story 3 ("As a student, I need to be able to create an account in order to use the platform")

- Implement API call to create a new account, and specify user type

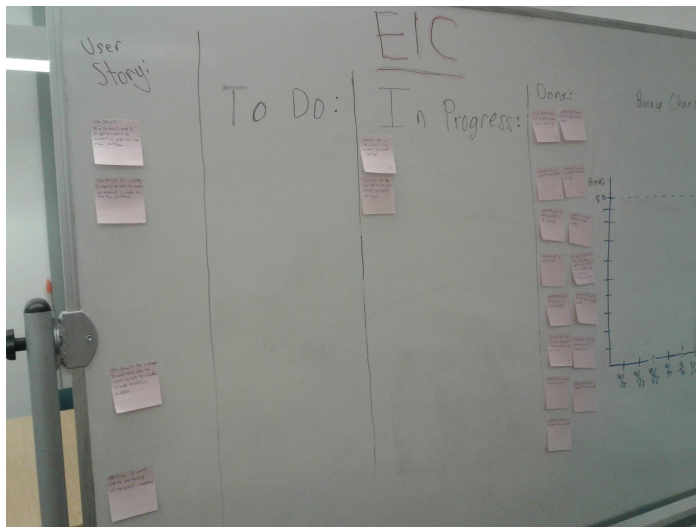

User story 4 ("As a buddy, I need to be able to create an account in order to use the platform")

- Implement API call to create a new account, and specify user type

Work Completion Rate:

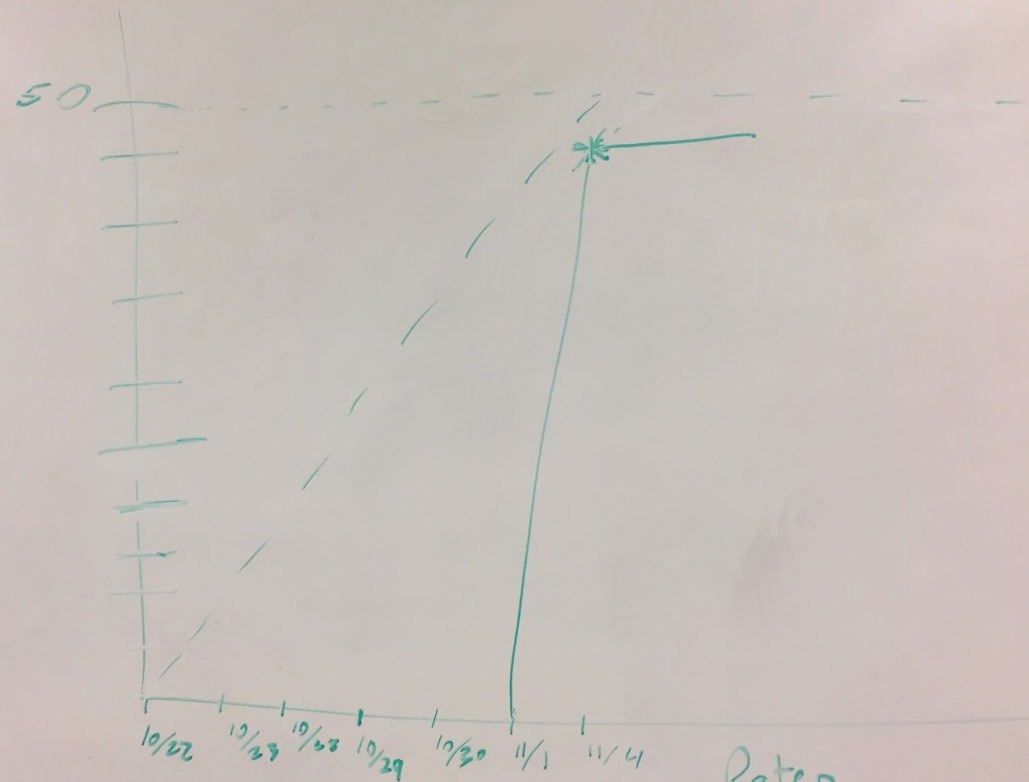

- 2 user stories completed during sprint
- 42 ideal work hours completed
- Sprint was 14 days in length
- 3 work hours completed per day
