Sprint 4

Equip Invest Contract
EIC

Goal:

Our goal is to allow companies to use the app by posting contracts for students to view. We would like to have a polished version of the app by the end of the sprint for initial release, and have the product deployed on Heroku.

Tasks:

User story 7 ("As a student/buddy, I need to be able to view and create posts to the central resource page so that there is content there")
1. [3 hours]Create UI to view existing posts in a list
2. [3 hours]Create UI page to add new posts
3. [3 hours]Create UI page to view a single post in detail
4. [1 hour] Implement delete post in UI
5. [6 hours] add unit tests

User story 9 ("As a company, I need to be able create contracts so that students see what I am looking for in a contractor.")
1. [5 hours]Create paginated call to get posts from contract schema
2. [4 hours]Create UI to view existing contracts in a list
3. [4 hours]Create UI page to add new contract
4. [4 hours]Create UI page to view a single contract in detail
5. [4 hours]Implement API calls to create a contract
6. [2 hours]Implement API calls to list contracts based on parameters
7. [1 hour] Implement delete contract in UI
8. [1 hour] Implement delete contract in API
9. [1 hour] Add icon to UI to access contacts page
10. [6 hours] add unit tests

 User story 14 ("As a user, I want to be able to access the website online so that I can use it.")
1. [2 hours] Learn how to deploy app to Heroku
2. [2 hours] Pull out internal links and make configurable for deployment
3. [4 hours] Setup deployment pipeline

 User story 15("As a company, I want to be able to edit my profile information so that I have control over what info the platform stores about me.")
1. [6 hours] expand existing edit profile functionality to include company account type
2. [2 hour] Implement update profile info in backend API

3. [4 hours] Implement some unit tests on backend
