Release Plan
Equip Invest Contract
EIC
Release 1
2 December 2018
Revision 1
Revision date: 9 October 2018

High Level Goals:

As developers, we need to learn the technologies needed to create this application. We will create an initial product layout, which will guide future development.

Students and buddies will be able to create accounts on the app, and students will be able to search for buddies based on target criteria.

Students will be able to send requests to buddies, and buddies can choose to accept/decline. Buddies and students will be able to post to a central resources page. Companies will be able to create an account on the application.

Companies will be able to create contracts for open employment opportunities, post to a central resources page, contact students that they are interested in, and receive communications from students interested in contracts

User stories for release:

Sprint 1:
        (32) User story 1 ("As a developer, I need to have a basic knowledge of React in order to build a modern front end")
        (32) User story 2 ("As a developer, I need to have a basic knowledge of Express.js in order to build a modern back end")
        (8) User story 3 ("As a developer, I need to have an initial database schema so there is cohesive design for the initial project prototype")
        (8) User story 4 ("As a developer, I need to have a high-level UI plan in order to prototype the app")
        (8) User story 5 ("As a team, we need to allow the front end React app to access data from the backend")

Sprint 2:
        (16) User story 6 ("As a student, I need to be able to create an account in order to use the platform")
        (16) User story 7 ("As a buddy, I need to be able to create an account in order to use the platform")

(16) User story 8 ("As a student, I need to be able to send requests to a buddy in order to obtain buddies")

Sprint 3:

(16)User story 9 ("As a student/buddy, I need to be able to send a request and accept/decline buddies")

(16)User story 10 ("As a student/buddy, I need to be able to view and create posts to the central resource page")

(8)User story 11 ("As a company, I need to be able to create an account")

Sprint 4:

(16) User story 12 ("As a company, I need to be able create contracts for students to apply to")

(8) User story 13 ("As a company, I need to be able to post to central resources page")

(4) User story 14 ("As a company, I need to be able to contact students that they are interested in")

(4) User story 15 ("As a student, I need the ability to contact companies that I am interested in")

Product Backlog: Empty as default
